

Spec Builder™

Spec Builder™ is a fast, free and easy-to-use online specification drafting tool for erosion control and reclamation professionals.

Customizable To Your Exact Needs

- Erosion control products
- Seedbed preparation
- Application rates
- Fertilizer and soil amendments
- Seed mixes
- Site inspection and maintenance

Always Up-To-Date

Easily build comprehensive, CSI-formatted specifications:

- Hydraulically applied Erosion Control Products (HECPs) — choose branded or non-proprietary categories of products.
- Soil testing and soil amendments — including Biotic Soil Media™, fertilizers and growth stimulants.

Once developed, you'll receive instant access to your complete documents in editable Word files.

Visit ErosionControlSpecs.com to see how easy it is.
