

Florikan®
Controlled Release Fertilizer

MAGNESIUM-EMJEO

Guaranteed Analysis

Magnesium (MgO)*26.2%
20.0% Water Soluble Magnesium (MgO)
Sulfur (S) 16.0%
16.0% Combined Sulfur

Do not apply if a heavy rain is expected.
Do not apply near water, storm drains or
drainage ditches, or to any impervious surface.
Only apply to the intended application area.

Derived From

Polymer Coated: Magnesium Sulfate

*All the materials have been polymer coated to provide 20.0% Slow Release Magnesium Oxide (MgO).

Recommendations:

Micro Nutrients The following is recommended for Best Results:

Mix Meg Iron V with Florikan 6 month Coated Magnesium, at 1 to 1 blend ratio.

For soil incorporation:

Use the blend at 4 lbs per cubic yard (5 to 1 ratio with coated NPK)

UP TO: 180 DAYS

WARNING TO PURCHASER, THIS IS A DISCLAIMER. The performance warranty and/or release of this product, whether stated or implied, is null and void if improperly stored.

Heavy Metal Statement: Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.html>

CAUTION: KEEP OUT OF THE REACH OF CHILDREN HARMFUL IF SWALLOWED. This product must be stored under cool and dry conditions.

Environmental Caution: As a precaution, fertilizer products should not be applied within 15 feet of any water body.

NOTE: Fertilizer products can be hygroscopic and may be affected by humidity and/or heat during improper storage. Please keep this fertilizer product in a dry condition and away from heat and moisture which may start release in the bag.

About FlorikanCRF

This product is a commercial fertilizer used as plant food in agricultural crop production or wholesale nurseries. For specific application rates follow the recommendation of a qualified individual or institution, such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication or apply according to recommendations in your approved nutrient management plan.

DIRECTIONS FOR USE - FlorikanCRF™ should be applied according to soil or growing media conditions and the specific nutrient requirements of the crop being grown. It is recommended that a soil analysis is done prior to incorporation of FlorikanCRF™. If the soil or growing media is sandy, and loose with good drainage (low Cation Exchange Capacity), a higher rate of the product should be used. For heavier, clay-type soils (high Cation Exchange Capacity) a lower rate of FlorikanCRF™ should be used.

NOTICE - Warranty of this product, either expressed or implied, is limited to a guarantee of the composition as shown on the label in as much as uses are beyond the seller's control. For the same reason, seller is not liable for any injury to living things, crops, soils or materials which may result from the use of this product.
